The Wood-Gas Controversy. A RATHER sharp but distant firing is carried on by some persons interested in Wood-Gas Patents; and we perceive that the moke of their cannon has somewhat obscuheir vision. Dr. C. G. Page, as the attorney for W. P. McConnell, having presented his claims through our columns, L. R. Breisach, of this city, has presented those of Pettenkofer & Ruland, of Bayaru—he being their assignee—through the columns of the Daily Times of the 3d instant. He states that the first potent for the Bavarian invention was issued on February 24, 1851, an authen-ticated copy of which has been filed in our Patent Office; also, that the claims of his assignors were filed in the office, to protect their rights, more than a year ago. As no patent can be obtained for making or using Wood-Gas, the disputed point relates to the apparatus, which embraces the reheating of the gas—passing it over a red-hot surface in its way to the cooler—after it is generated; this is clearly stated in Dr. Page's on page 50. Now, as McConnell claims to have invented the apparatus for reheating Wood-Gas. as far back as 1849-two years previous to the granting of the Bavarian patent—and as he ob-tained a patent for the same, on the 26th day of September last, although contested by Pettenko September last attacking the september and a september last attacking the he violators of the Bavarian invention. He gives this notice to all who take an interest in the int duction of this invention, but, in doing so, he for-got to present any fact upon which the public can rely, to show what patent rights he possesses. When he again writes to inform the public that he has certain patent rights, and will prosecute these who infringe them, we hope he will be so good as o state what these rights are, so that the nay know what he means .- Scientific American.

PROSPECTUS OF THE

NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard principles which we have always held, and regard as the only basis of prosperity in our form of government, and inspired with a sincere desire to serve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attraction ant, and to us peculiarly agreeable. The attrac-tions of the editorial profession and its honorable toils, together with a desire to extend its influence has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion-uninfluenced by selfishness an devoted to principle, may secure sufficient patron-age, without interfering with the claims or rights

such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the welfare of North Carolina, whether relating to the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the *Statesman* a medium of ge-neral intelligence. Accordingly, the state of the markets in the principal cities, to which our com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less ad-dressed to the subject of internal improvements as a means indispensable to the development of as a means indispensable to the development of the mineral and agricultural resources of the State the mineral and agricultural resources of the State.
These interests, of primary importance, shall always command their fullest attention. To this they propose to add carefully selected and original literary matter. Being strictly conservative, they propose to avail themselves of all the lights of experience, in that progress, which promises the advancement of the interests of North Carolina. The general objects of the proposed paper being thus clearly indicated, it may not be amiss briefly to state the particular views which are to be sur

to state the particular views which are to be sus-tained by it as a political journal.

1st. Our purpose being to publish a paper purely de mocratic, according to the straightest requirements of that party, we shall advocate strict party organi zation in its fullest and most comprehensive sens an organization which originates in the popul will, expressed by the people in their primary as-semblies, and which has been so successfully in-troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing community respect and obedience; an organiza-tion of the people, and not of intriguers; restoring power to those whe, by sufferance, have telerated

its temporary usurpation.

2d. The democratic party shall always find in usurpation. advecates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good sid State rights platform of '95, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, or any other measure inconsistent with the right of the States.

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the presen administration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy
4th. They will advocate all such measures of in ternal improvement as promise by judicious prose cution to promote the interests of the people and diffuse the benefits of a system already enjoyed b

portions of the State.

5th. The disposition of the public lands being t question of the most absorbing interest, we be-lieve it should be at once met and settled. The unjust and unequal legislation of Congress, in re-lation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of appropriating the proceeds of their sales to the pa ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this sys-tem of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain The power "to dispose of the public lands explicitly declared in the Constitution, the exer expicitly declared in the Constitution, the exer-cise of that power is a question of policy, both as to the time and the mode." Believing, as we do. that it has become the settled policy of Congress to squander the public lands, we adopt the patri-otic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and demo-crats, should protest, and demand North Caro-lina's stage of the applied decision."

The public often deceived could not believe the simple and sublime truths announced by the deceived to the simple and sublime truths announced by the deceived to the simple and sublime truths announced by the deceived to the simple and sublime truths announced by the deceived to the simple and sublime truths announced by the simple and sublime truths announced to the simple and the simple a nounced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing over all doubts.

Incredulity is overthrown by a mass of testimony which is perfectly irresistible.

The Effxir remedies in all cases the deplorable

evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate funcion connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicat-ing that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the listless, enervated youth, the over-worn man of business, the victim youth the over-worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and perma-nent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixir deals with disease as it exists.

The derangements of the system, leading to ervous diseases, and the forms of nervous disa celumn to enumerate the maladies for which this preparation is a specific. A few, however, may be enumerated, viz: neuralgia tic-doloureux, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental de-pression, weakness of the will, indisposition to pression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and terrifying dreams, inability to remain in one place or position, weaking of the procreative organs, sexual incompetency, melancholy, monomania, fluor albus, sinking at the stomach, female irre-gularities, a chronic tendency to miscarriage, emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of medicine.

Whenever the organs to be acted upon are free from malformation or strictural diseases

MORSE'S INVIGORATING ELIXIR MORSE'S INVIGORATING ELIXIR
Will replace weakness with strength, incapacity
with effleiency, irregularity with uniform and natural activity, and this not only without hazard of
reaction, but with a happy effect on the general
organization. Bear in mind that all maladies,
wherever they begin, finish with the nervous system, and that the paralyzation of the nerves of
motion and sensation is physical death. Bear in
mind, also, that, for every kind of nervous disease
the Elixir Cordial is the only reliable preparation

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be

called the of the nineteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine heretofore supposed to

A STIMULANT THAT ENTAILS NO RE ACTION.
Its force is never expanded, as is the case with opium, alcoholic preparations, and all other exc tants. The effect of these is brief, and it may we be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sleeplessness, dislike of society,

INVIGORATING CORDIAL,

DURELY Vegetable in its composition. This invaluable Cordial is extracted from Herbs and Roots, which have been found after years of experience, by the most skillful physicians, to be nossessed of qualities the most beneficial in the diseases for which it is recommended; and hence, whilst it is presented to the public as an efficacious remedy, it is also known to be of that character on which reliance may be placed as to its safety. In cases of Impotency, Hæmorrhages, Disordered Sterility, Menstruation, or Suppression of the Menses, Fluor Albus or Whites, or for Debility arising from any cause, such as weakness from sickness, where the patient has been confined to bed for some time, for females after confinement, abortion or miscarriage, this cordial cannot be excelled in its salutary effects; or in loss of muscular energy, irritability, physical

or in loss of muscular energy, irritability, physical prostration, seminal weakness, palpitation of the heart, indigestion, sluggishness, decay of the procreative functions, nervousness, &c., where a rome medicine is required, it will be found equal f not superior to any compound ever used.

To Females.—Henry's Invigorating Cordial is one of the most invaluable medianes in the man complaints to which females are subject. It as aists nature to brace the whole system,

cesses, and creates renewed health and happiness
Less suffering, disease, and unhappiness among
ladies would exist, were they generally to adopt
the use of this cordial. Ladies who are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two to bloom and to vigor.

Young Men.—That solitary practice, so fatal to
the existence of man, and it is the young who are most apt to become its victims, from an ignorance of the danger to which they subject themselves,
